

GLOBAL YOUTH CULTURE

U.S. REPORT

Fast Facts from OneHope's *Global Youth Culture: United States* survey shares the trends, behaviors, and struggles that influence 13-19-year-olds in the U.S.

Teens are sorting through what they believe...

3 in 5 teens in the U.S. say they **never** read religious scripture on their own.

Nearly half (45%) of teens believe **all religions teach equally valid truths**. Christians are **just as likely** as non-believers to say this.

8%

51%

While **51%** of teens surveyed self-identified as Christian, just **8%** display the beliefs and habits of a **Committed Christian**.

Nearly **6 out of 10** Christian teens we surveyed **don't** believe they have a responsibility to **share their faith or religious beliefs with others**.

2 out of every 5

teens in the U.S. claim no religion – sometimes this group is called “nones”. Yet, **2 in 3** in this group would consider coming to church if someone invited them.

U.S. teens are wrestling with many different types of personal struggles...

35% of teens in the U.S. report having had suicidal thoughts within the last three months—the highest rate of any country in our global study.

1 in 4 teens report feeling **sexually attracted to someone of the same gender** within the past three months.

Nearly half of **13-15** year olds admit viewing porn within the past **3 months**.

More than half of Christian teens say pre-marital sex is **acceptable**.

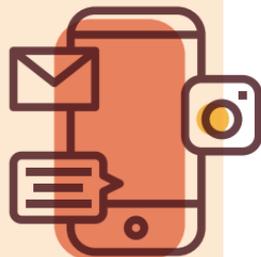

U.S. teens are the **most dissatisfied** with their **family experience** of any country surveyed.

Don't miss this.

U.S. teens rank **#1** in the study for most hours per day spent **consuming video content**.
